[PDF] Phenomenal Consciousness A Naturalistic Theory

Phenomenal consciousness: a naturalistic theory is a strikingly successful combination of novel, bold and effective argument with clear, systematic and engaging exposition. While constructing and defending an original theory about phenomenal consciousness, Carruthers also provides an up-to-date guide to the philosophical literature and relevant empirical findings. In the crowded marketplace for work on consciousness, this is a book that students and professionals in philosophy and ...

How can phenomenal consciousness exist as an integral part of a physical universe? How can the technicolour phenomenology of our inner lives be created out of the complex neural activities of our brains? Many have despaired of finding answers to these questions; and many have claimed that human consciousness is inherently mysterious. Peter Carruthers argues, on the contrary, that the subjective feel of our experience is fully explicable in naturalistic (scientifically acceptable) terms ...
