LONG 2022-03-22 The definitive history of the third generation Mazda MX-5, which was also known as the Miata or the Roadster covers all model types in all major markets, and uses contemporary photography gathered from around the world to guide owners and enthusiasts through a minefield of variations. *Muslims in Global Politics* Mahmood Monshipouri 2011-07-07 In Egypt Islamists clash with secularists over religious and national identity, while in Turkey secularist ruling elites have chosen to accommodate Islamists in the name of democracy and reconciliation. As Islam spreads throughout the world, Muslims living in their traditional homelands and in the Western world are grappling with shifting identities. In all cases, understanding the dynamics of identity-based politics is critical to the future of Muslims and their neighbors across the globe. In *Muslims in Global Politics*, Mahmood Monshipouri examines the role identity plays in political conflicts in six Muslim nations–Egypt, Iraq, the United Arab Emirates, Turkey, Iran, and Indonesia–as well as in Muslim diaspora communities in Europe and North America. In each instance, he describes how conservatives, neofundamentalists, reformists, and secularists construct identity in different ways and how these identities play out in the political arena. With globalization, the demand for human rights continues to grow in the Muslim world, and struggles over modernity, authenticity, legitimacy, and rationality become increasingly important. Muslims in Global Politics deepens our understanding of how modern ideas and norms interact with the traditions of the Islamic world and, in turn, shows how human rights advocates can provide an alternative to militant Islamist movements.
